FRAME BACKING PAPER

Frame backing and sealing are often the neglected elements in a frame package. Lineco's conservation frame backing and sealing items provide the proper materials to protect the art from dust and acidity from raw wood.

Safe, easy to use.

PAT
PASSED
ANSI
ISO 18916

Main Use:
Acid-free, buffered paper
for museum quality framing

Now available in
convenient sizes
for individual use.

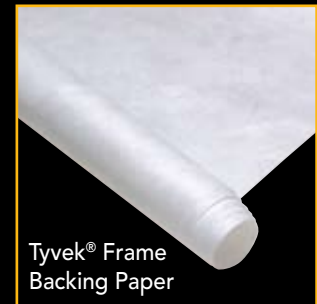

Frame Backing Paper

Our attractive gray paper will add value and differentiate the quality of your work. This acid-free and buffered paper won't harm the art. Moderate porosity allows the frame package to breathe, and the 40 lb weight paper cuts and is easily handled.

Tyvek® Frame Backing Paper

A unique frame backing material that is acid-free and contains no damaging chemicals that can affect framed artwork. Tyvek® is easily cut and worked like traditional paper frame backing materials, yet is puncture and moisture resistant, and won't attract insects.

Merchandise with Lineco's frame sealing tapes and Volara® foam rabbet tape. See reverse side.

Tyvek® Frame Backing Paper
