ISO 18916

Self-Adhesive Frame Sealing Tape

Frame sealing tape seals off raw wood rabbets and fillets to protect the art and stop acid migration. An acid-free, lignin-free buffered paper is laminated to a thin aluminum barrier layer and coated with an aggressive, acrylic adhesive that bonds firmly to raw wood. The aluminum provides a barrier that stops acid migration and meets the FACTS standard for maximum preservation framing.

I-Film™ Corrosion Intercept® Protection

Self-Adhesive I-Film™ Frame Sealing Tape

Polyethylene is imbedded with a Corrosion Intercept® Technology copper matrix and coated with strong acrylic adhesive. The Corrosion Intercept® matrix stops acid, corrosive gases and retards mildew and mold. I-Film™ is flexible, strong and puncture-resistant for easy application. Strong adhesive sticks to raw wood. Use I-Film™ for sealing raw wood fillets, rabbets, frame backs and frame packages to protect from acid migration, corrosive gasses, mildew and mold.

Tyvek® Tape

This pressure sensitive white polyethylene Tyvek® tape displays incredible tenacity, even under the most rigorous of circumstances. Uses include hinging mats, binding folder spines, performing book repairs to battered books, as well as a variety of other uses. The pressure sensitive acrylic adhesive eliminates the sticky mess associated with moistenable adhesive backed Tyvek® tapes around valuable art work.

Self-Adhesive Volara® Foam Rabbet Tape

Line frame rabbets to provide padding and a slippery surface to protect canvas transfers, digital art and oils from sticking to the wood rabbet. Volara® is an acid free, closed cell, inert polyethylene foam coated with a stable acrylic adhesive.

Frame Sealing Tapes

Item	Description	Color	Size	UPC 099295
L387-0151	Self-Adhesive, Foil Back, Frame Sealing Tape	Gray	1.25" x 85 ft.	53011 8
