STARTING THE BOOKBLOCK: Use the pages.

Definition: Folio:

a single sheet of paper folded in half, figure 3.

Signature:

folios stacked inside one another, figure 4.

Bookblock:

several signatures sewn or glued together.

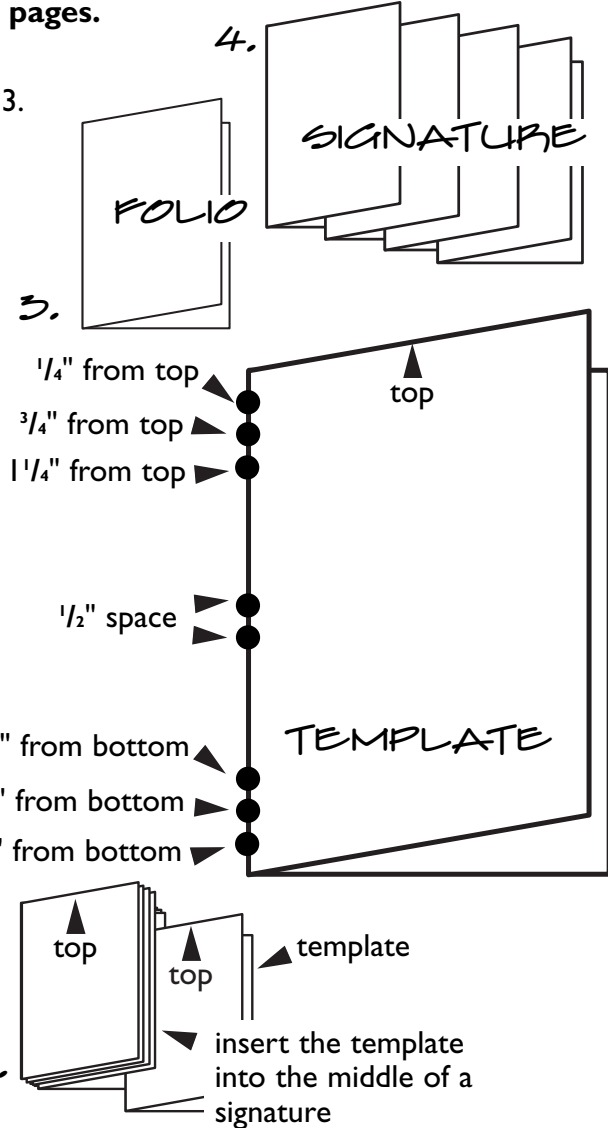

• create 24 folios by folding each piece of paper, with a bone folder, in half along the short dimension, figure 3.

• stack four folios inside one another, figure 4, to make six separate signatures.

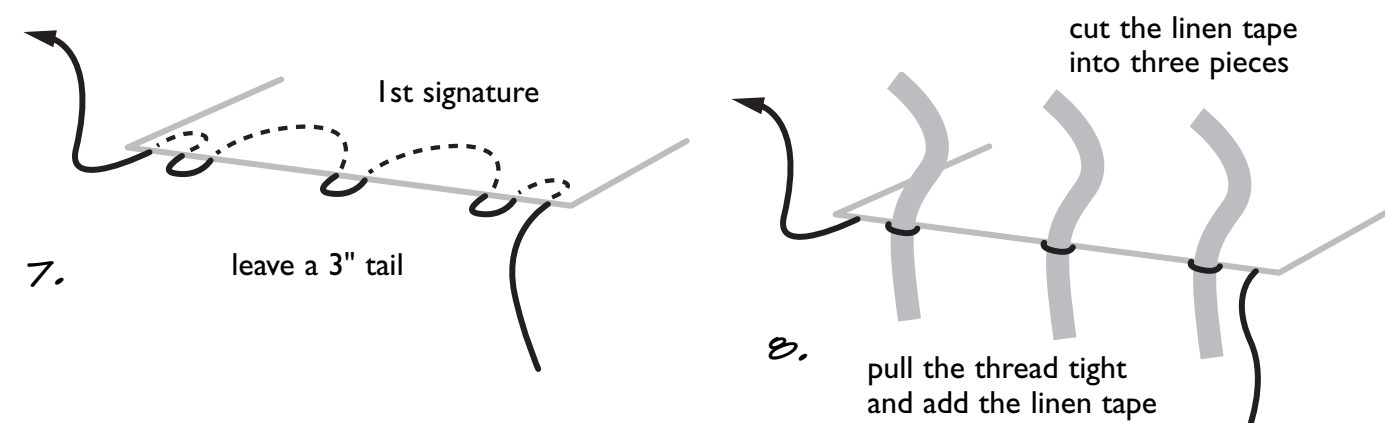

• with a pencil, to designate the top edge, lightly mark each signature somewhere with an arrow pointing up.

• using an extra sheet of paper, create a template by making a folio. Mark with eight sewing holes as shown, figure 5. Mark the top of the template with an arrow..

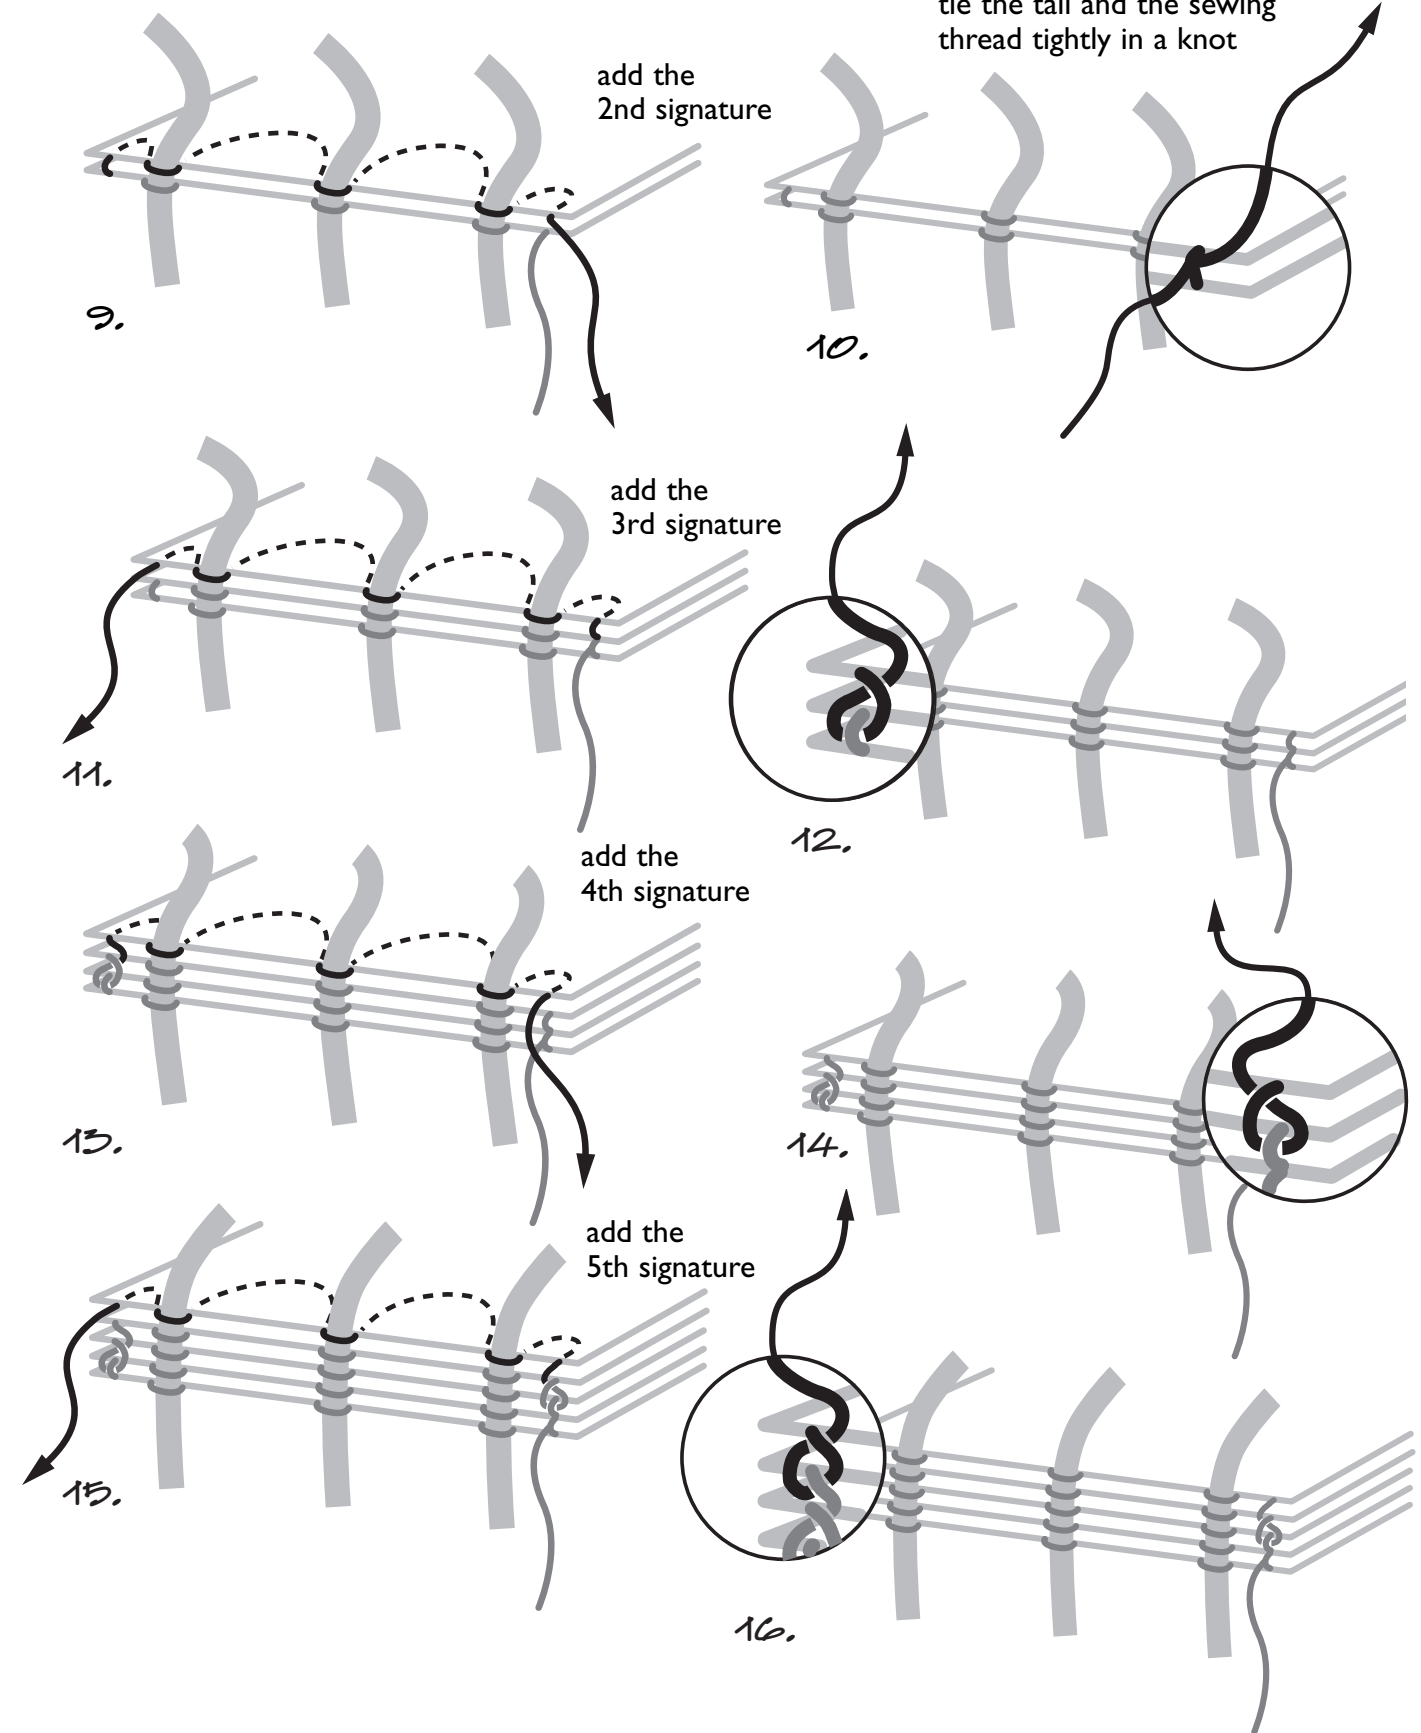

• matching up the template top and a signature top, place the template in the inside of a signature, figure 6. Using a push pin or light duty paper awl, punch a hole through the entire signature and template at each pencil dot along the fold. Be careful not to let the paper move around. Repeat for all of the remaining signatures.
